V. PUBLIC INTEREST CONSIDERATIONS

The Petitioners have determined that the proposed transaction will improve operational efficiency, and thus provide greater opportunities to improve the price and performance of services available to its customers. If prior customer authorization is required in this event, customers may fail to respond to a request for authorization, neglect to select another long distance carrier or lose their long distance service during the transition. Consequently, granting this Petition is consistent with the public interest in promoting competition among telecommunications carriers in Tennessee. Further, by granting this Petition, unnecessary slamming complaints will be prevented during the transition, saving Petitioners and the TRA administrative burdens.

WHEREFORE, for reason stated above, the Petitioners submit that the public interest, convenience and necessity would be furthered by a grant of this Joint Petition for Approval of Customer Base Transfer pursuant to Rule 1220-4-2-.56(2)(d).

Respectfully submitted this 30th day of September, 2005.
